The pedigree chart illustrates the lineage of Storm Palm, a champion sprinter. The chart is organized into three main vertical columns. The leftmost column contains the ancestors: Northern Dancer (CAN), Catcher in the Rye (IRE), Storm Palm, and Palm. The middle column contains the intermediate breeding stock: Danzig (USA), Danehill (USA), Truly A Dream, Thunder Gulch (USA), Gulch (USA), Line of Thunder, Cautin, and Palm. The rightmost column contains the terminal ancestors: Pas de Nom (USA), Razyana, Truly Special, Shirley Heights (GB), Delisy, Caerleon, Arctique Royale, Storm Bird (CAN), Shoot a Line, Cipayo, Anala (GB), Faridoon, and Pally High (GB). The chart uses a color-coding system: blue boxes for male horses and pink boxes for female horses. The dates of birth are provided for each horse, indicating the timeline of the breeding program.
