The diagram illustrates a hierarchical tree structure representing the organization of SIN ASIGNAR nodes. The root node is labeled "SIN ASIGNAR 01/01/0001". This root branches into two child nodes, both labeled "SIN ASIGNAR 01/01/0001". Each of these child nodes further branches into two more child nodes, all labeled "SIN ASIGNAR 01/01/0001". Finally, each of these four nodes branches into two leaf nodes, also labeled "SIN ASIGNAR 01/01/0001". The entire structure consists of 16 nodes arranged in five levels, demonstrating a binary branching pattern.
